WORK EXPERIENCE

Freelance Full Stack Engineer | Mar 2026 – Present

Fiverr

- Engineered and deployed secure web applications for global clients, utilizing robust networking protocols and Linux environments to ensure high availability.
- Developed high-performing full-stack solutions under tight constraints, integrating web application security best practices to safeguard user data.

Mid Full Stack Engineer | Feb 2026 – May 2026

Hooded Horse

- Spearheaded the development of core software infrastructure and robust web technologies, optimizing system stability and application performance.
- Bridged full-stack development with user interface design to build scalable internet software and seamless end-user experiences using the MEAN stack.

Trainee/Junior Web Developer | Nov 2025 – Feb 2026

GSoftX

- Engineered and optimized modular front-end components using a modern stack (HTML5/CSS3/JS), ensuring code reusability and high performance across the GSoftX ecosystem.
- Collaborated with senior engineers to translate complex design specifications into responsive, user-centric features.
- Championed code quality through active participation in peer reviews, implementing industry-standard best practices to ensure long-term codebase scalability.

Freelance UI/UX Designer | Feb 2024 – Jan 2025

Upwork

- Executed end-to-end web and mobile web design strategies for 5+ international clients, transforming complex requirements into high-converting, intuitive digital products.
- Utilized strong user research skills to architect comprehensive design systems, interactive prototypes, and responsive mobile application designs in Figma.

Customer Support Specialist | Sep 2024 – Dec 2024

Cross Nations Services

- Delivered high-quality customer support and resolved complex inquiries by leveraging clear, empathetic, and cross-functional communication.
- Collaborated closely with internal teams, contributing to a positive culture and team-building initiatives to optimize daily service operations.

ACADEMIC HISTORY

Yerevan State University | 2022-Present

Cultural Studies

Tumo Labs | 2026-Present

Full Stack Development (GSL)

CERTIFICATION

The Odin Project | 2023

Full Stack JavaScript

Armenian Code Academy (ACA) | 2023

UI/UX Design

SKILLS

Frontend

- React
- JavaScript (ES6+)
- TypeScript (Basic)
- HTML5
- CSS3/SASS

Backend & Tools

- Node.js
- SQL
- REST APIs
- Git
- Unix Shell (Bash)
- C
- Python

Design

- Figma
- UI/UX Design Systems
- Prototyping

Languages

- Armenian (Native)
- Russian (C1)
- English (B2)
